

What sets us apart

THE ORGANIXX DIFFERENCE

The Organixx difference is simple: high-quality plant selection, expert masonry craftsmanship, and an unrivaled, organic approach to sustainable landscaping. Designing for permanence is always our first objective. Our extensive plant inventory and award-winning designs ensure you get the landscape you want--on time and on budget.

Basic company values guide everything we do, that's why we have such overwhelming client satisfaction. We believe honesty, integrity, respect, and passionate professionalism aren't just good ethics, they're good business.

We get the job done right. We're proud of work and will stand behind it, no matter what.

ORGANIXX

Organic Landscaping

Sustainable. Affordable. Beautiful.

OUR COMPANY PROFILE

At Organixx, we know good landscaping is many things: a beautiful backdrop; a living sanctuary; an extension of your home. Whatever landscaping is to you, the landscape architects at Organixx have the vision, experience, and expertise to co-create your ideal landscape—all while protecting you, your family, and the environment.

- ✓ 30 Years Experience
- ✓ Registered Landscape Architects
- ✓ Hundreds of Happy Customers.
- ✓ All Organic. No Chemicals.

The Organixx Process

DESIGN | BUILD | MAINTAIN

Organixx offers a huge breadth of landscaping services. We use a specialized, organic process that guarantees a beautiful landscape without any harm to the environment. One phone call to Organixx gives you access to experts in a broad range of services: landscape design, landscape construction, organic maintenance, and more.

DESIGN

At Organixx, we work alongside you to design your dream landscape. Together, we'll create a conceptual direction that will guide our development of the final plan.

BUILD

Once the final plan is ready, we bring your vision to life. We pride ourselves on quality materials, expert craftsmanship (including masonry and iron work), and top-notch plant selection and installation.

MAINTAIN

Our organic landcare maintenance programs are both an art and a science. We know that healthy soil is the first step to beautiful landscapes. Our customized programs are specifically designed to meet the individual needs of your landscape.

100% ORGANIC

Organixx uses a proprietary system to create beautiful, sustainable landscapes. Our organic landcare approach ensures ideal landscapes without a cost to the environment.

WHY GO ORGANIC?

Organic landscaping is better for your lawn, your wallet, and our shared environment.

- ✓ **Save Money** - Studies show that organic lawn care is cheaper in the long run. The use of chemical fertilizers is not cost effective--the more chemicals you use, the more chemicals you need. The same is not true for our 100% organic programs.
- ✓ **Better Results** - Organic lawn care works to maintain the soil, and that means healthier and more sustainable lawns. Chemical lawn care is designed to treat your grass, not your soil.
- ✓ **Safe** - Chemical fertilizers and herbicides were born in munitions labs. These chemicals run off into our water supply, creating whole dead zones in large bodies of water. Worse, they stay in your lawn, threatening the safety of your family.
